Corbus has topped [Nasscom](#)'s list of 'exciting emerging companies to work for' in the Indian IT/ITES industry, with RMSI Pvt Ltd and Hytech Professionals India placed second and third in the pecking order, respectively.

The survey, which identifies the 'Top 15 exciting emerging companies' throws light on best practices, which at times may seem "not that necessary" for a small sized company but are vital for the future growth of the company.

The ranking puts Nagarro Software, VCustomer Services India and e4e Business Solutions India in the fourth, fifth and sixth position, respectively.

The survey aims to identify the best small and medium sized IT-BPO companies to work for, with annual turnover of up to Rs 250 crore.

this is really good for us, as now we know which companies we should target to get in to. i personally hate big companies and this is surely good to know where i can get in to. companies like HyTech Professionals (<http://www.hytechpro.com>) i never heard of them and survey is really helpful to identify them and put it for everyone. Good Job.
